Find and pay an invoice

View your invoices

Sign in to the CloudExa client area and open the invoices section. Select the invoice to view its items, currency, amount, status and due date.

Make a payment

Use the payment options shown on the invoice. Confirm you are paying the correct invoice before completing payment. The available payment methods depend on your account and invoice.

Payment or invoice questions

If payment is still pending or you believe an invoice is incorrect, open a support ticket with the invoice number and payment reference. Do not send full card details or account passwords.
